

RMG Release Process

Andreas.Dilger@Sun.COM

Contents

- Feature/Fix Tracking
- Patch Testing
- Patch Landing

Feature/Fix Tracking

- Block the release trackers
 - > Use release aliases, e.g. 165-tracking
 - > Use resolved tracker, e.g. 165-resolved

Feature/Fix Tracking

- Block the release trackers
 - > Use release aliases, e.g. 165-tracking
 - > Use resolved tracker, e.g. 165-resolved
- Block a feature tracker
 - > Allows feature landing to be flexible
 - > Makes porting easier

Feature/Fix Tracking

- Block the release trackers
 - > Use release aliases, e.g. 165-tracking
 - > Use resolved tracker, e.g. 165-resolved
- Block a feature tracker
 - > Allows feature landing to be flexible
 - > Makes porting easier
- Defects should link to original bug
 - > Tracks fixes to all branches

Patch Testing

- Need to test new code
 - > echo_client, obdfilter-survey
 - > quotas

Patch Testing

- Need to test new code
 - > echo_client, obdfilter-survey
 - > quotas
- Tests need to be run regularly
 - > Kerberos
 - > CMD?

Patch Testing

- Need to test new code
 - > echo_client, obdfilter-survey
 - > quotas
- Tests need to be run regularly
 - > Kerberos
 - > CMD?
- Tests need to exercise new code
 - > Best to write while developing fix

Patch Landing

- Flags allow tracking patch lifecycle
 - > Inspection ?

Patch Landing

- Flags allow tracking patch lifecycle
 - > Inspection ?
 - > Testing ?

Patch Landing

- Flags allow tracking patch lifecycle
 - > Inspection ?
 - > Testing ?
 - > Permission ?

Patch Landing

- Flags allow tracking patch lifecycle
 - > Inspection ?
 - > Testing ?
 - > Permission ?
 - > Landing ?
